Reflective Discourse Digital Workshop Questionnaire

Choose a personal project you have recently been working on

• Why have you chosen this project above others?

• What did you aim to state, express or represent through this personal project?

• What was the initial inspiration behind your personal project?

• What problems and difficulties did you encounter during the project? How did you go about resolving them?

• If you were to revisit the project at a later date, what would you do differently and why?

• Describe a moment in the workshop when you felt most engaged with what was happening?

• Describe a moment in the workshop when you felt most distanced with what was happening?

• What action that anyone took (student or teacher) during the workshop did you find most encouraging or helpful?

• What action that anyone took (student or teacher) during the workshop did you find most puzzling or confusing?

• What surprised you most about the workshop? (This could be about your own reactions, something that someone did, or anything else that occurred).
